

Seeds and Such, Inc.

The Catalogue of 2013

Nut Wizard[®] tools are designed to pick up nuts, fruits, balls, and spent brass with little or no bending over. They are lightweight, easy to use, and simple to unload. It seems like magic! The basket attaches to a wooden handle (upgrades to aluminum extension handles are available). Each tool has a one-year warranty. Nut Wizard[®] tools come in five sizes, with each size suited to gather a specific size of nut or fruit. It will work in several inches of grass, around trees, and on uneven ground. The unloader allows easy emptying into a bucket or trash can.

To determine the correct size, measure the diameter of the smallest item you would like to pick up. Nut Wizard[®] tools are able to pick up larger items than the recommendations in smaller quantities (see chart to the right). Each Nut Wizard[®] tool includes one unloader and is manufactured in the USA.

The extension handle, modified for Nut Wizard[®] tools, is easy to use and made of a lightweight, strong aluminum alloy. It has a twist locking system that keeps the handle in place, creating a secure extension for either 29 inches to 4 feet or 39 inches to 6 feet. The handle is easily carried and stored using its hanger, making it perfect for the range and the garage.

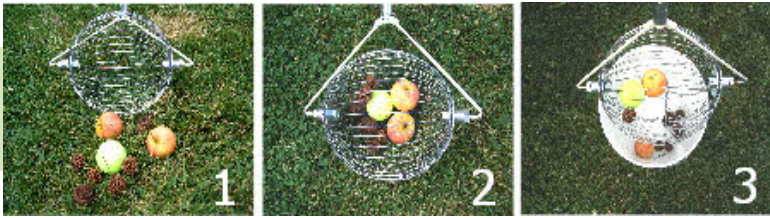

See video demonstrations at www.nutwizard.com.

We received the Nut Wizards last week!! We were and are totally astonished at how well they work; how much time they save; how much our backs and bodies do not ache now after picking up walnuts!! Our kids hated picking up walnuts and now they fight over getting to use them! This is a must tool for anyone with numerous black walnut trees like we have! An absolute amazing, work and time saving tool!! Thanks!!

Blaine

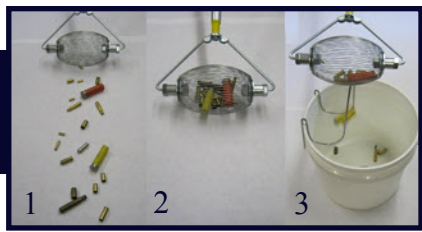

Nut Wizard® Size Comparison Chart

SIZE	PRICE	PICKS UP OBJECTS...	RECCOMENDED FOR...	SPECIFICATIONS Diameter x Width

All Nut Wizard® parts are available for purchase on our order form.

See pricing specials listed on our order form.

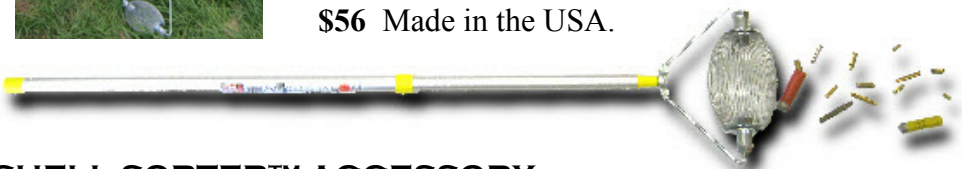

Need a new way to save your spent brass? The Brass Mower™ is a portable, lightweight, easy-to-use tool tailored to pick up brass on the range or in your own backyard. Use one tool to pick up casings ¼” to 1½” in diameter, including .22 cal, 9mm, .38 SPL, .357 MAGNUM, .40 cal, .45 cal, .223 REM, 30-06, and Shotgun Hulls. The Brass Mower™ works in short grass, on pavement, and on packed gravel. *Do not collect live ammunition with Brass Mower™ tools.* Each Brass Mower™ includes a basket, extension handle, bail, and one unloader. (*Bucket and brass are not included.*) The unloader allows easy unloading into a bucket or trash can. The aluminum alloy extension handle locks in any position between collapsed and extended lengths and is made for left- or right-handed users (locks by twisting in either direction).

Basket Capacity: 1 quart
 Dimensions: 4.5” in diameter x 5.5” wide
 Handle Size: Choice of 29” to 4’ or 39” to 6’

\$56 Made in the USA.

SHELL SORTER™ ACCESSORY

The Shell Sorter™ is made for sportsmen and reloading enthusiasts. Shell Sorter™ separates different calibers of brass cartridges by keeping larger shells in the upper layers while smaller shells fall into the lower layers. The 3 Piece Set separates 45ACP/.308, 40S&W/.357/.38, and 9mm/.223/.380. The .380 Plate further separates .380. The 3 Piece Set is plastic; the .380 Plate is metal. Made in the USA.

3 Piece Set **\$43** .380 Plate **\$25**

AMMO-UP™ For a tool that collects up to 3 feet of casings at a time, see the Bag-A-Nut™ and Ammo-Up™ page of this catalog.

Seeds and Such, Inc.

A note from Charlotte...

Thank you for your interest in the products we carry!

A few facts about our company:

In 1991 my husband's parents decided they would love to take the grandchildren to Disney World. My daughter, niece and two nephews worked diligently to pick up walnuts, only to discover the local hulling/buying station was no longer in business! The next year we began the new buying station. The kids worked hard, as well as the Waltz and King/Reynolds families. We had some great times (and some dirty ones too!). In just a few years over 600 families sold their walnuts to us. Soon our customers asked if we could buy their other nuts and acorns. That began our seed business. Jerry and Judy, our largest gatherers of tree seeds, came upon a Nut Wizard[®] tool on vacation. I will never forget the day they showed it to me. Wow! What a time and back saver! Of course, after that, Bill Head talked me into doing persimmon products, and it continues on.....I've had some nice people show me their inventions for rakes and bird feeder hangers. I hope you'll keep in touch to see what pops up next!

In Faith, Charlotte, Kent, Stephanie, and Awesome Staff!

We employ 7 part time workers and buy our seeds from a group of 15 to 20 seed collectors. We pay local, state, and federal taxes.

Products in this catalog are made and grown in the United States of America. Some parts are purchased from other countries. The Nut Wizard[®], Bag-A-Nut[™], and Shell Sorter[™] are patented inventions. All seeds and persimmons are raised and collected in Indiana and surrounding states.

Thank you for supporting jobs, manufacturing, and inventors from the United States of America!

Expiration Date

In general, orders are shipped by UPS or USPS the business day following receipt, and received by the customer in 1-5 additional business days. Express service is available but very expensive for Nut Wizard[®] and Brass Mower[™] tools. Contact us by phone if you need expedited shipping.

Nonfood items may be returned within 30 days of purchase, as long as they have been treated with respect. Buyers will be refunded original costs less shipping. Enclose order receipt in the box and mail it to the above address.

We are always looking for people and businesses to sell Nut Wizard[®], Brass Mower[™], and Persimmon Pelasures[™] products. We offer wholesale pricing on all of these items. If you are interested in retailing, we would love to talk to you!

SPECIALS Orders of 6 or more Nut Wizards or Brass Mowers receive \$5 off each one. Domestic orders of 12 or more receive wholesale pricing. Call 888-321-9445 for details.

Persimmon

Pleasures™

Persimmons are a Southern Indiana tradition. Many family recipes remind Hoosiers of holidays, family gatherings, and working under their old persimmon trees. Pulping persimmons is a labor-intensive process, done for the delicious end result of desserts and other favorite edibles.

Persimmon Pulp

We purchase persimmons from the Southern Indiana community. Collectors are trained in health guidelines and sell to us based on fruit quality. Our pulp is certified by the Indiana Department of Health and recognized by the Indiana Artisan program. Although the persimmon season is in the fall, we keep a supply year-round. Enjoy your favorite Indiana persimmon recipes anytime of the year! 1 Pint Pulp (Frozen) **\$8**

Persimmon Pudding

Enjoy the Indiana favorite made for you! Our Indiana persimmon pulp is the main ingredient, giving each pudding just the right flavor. Each pudding serves 4-8. Pudding (5 inch x 8 inch pan) **\$8**

Persimmon Chocolate Chip Cookie

Loaded with delicious chocolate, toasted English walnuts, and Old Fashioned oats, this irresistible dessert gives the chocolate chip cookie a new name. Made with our own Indiana Artisan persimmon pulp. Cookie **\$4**

Persimmon Cookbooks

Find a new favorite recipe in our persimmon cookbooks. The Dymple's Delight cookbook, titled *Persimmon Recipes*, was written by a Southern Indiana native. The Bear Wallow Books cookbook, titled *Old-Fashioned Persimmon Recipes*, gives a short explanation on how to harvest, clean, and process persimmons. Each book contains a variety of bread and dessert recipes. Both books are paperback. **\$4 each**

Native Nuts and Seeds

Each autumn, we enjoy providing native nuts and seeds to many customers, including both nurseries and individuals. If you are interested in purchasing nuts or seeds, place your order three weeks or more before the maturity date. Other varieties may be available upon request. Prices are subject to change.

Common Name	Price/ Pound	Maturity*	Notes

Black Walnuts and Hickory Nuts

White Oak Acorns

Collection Tools and Walnuts

Groundskeeper II Rakes

For raking leaves, mulch, rocks, and even enormous amounts of acorns, the Groundskeeper II gives your back a break. This rake's design surpasses many others on the market: while traditional rakes require bending over and using downward force to collect objects in a yard, the Groundskeeper II uses tines angled to grab the target without pressure. Every rake is manufactured in the USA and carries a warranty against defects. Each rake has a 55 inch fiberglass handle and either a 21 inch (full size) or 9 inch (shrub) head. The Groundskeeper II weighs less than 2 pounds. Full Size or Shrub Size **\$20**

Onion Sacks

Onion sacks are an invaluable tool for seed and nut gatherers. The onion sack works well for any product that needs to be kept together while still allowing air flow. This keeps seeds from overheating and allows nuts to dry easily. The sacks are lightweight, but very sturdy. Sacks can hold about 40 lbs. Package of 10 **\$5**

Black Walnuts

Buying black walnuts for Hammons got our whole business started – tree seed collection and all. Although we are no longer a hulling station ourselves, Hammons continues to purchase their walnuts from stations across the Midwest. The unique flavor and texture of black walnuts are perfect for fudge and other desserts. One pound bags are available in large and “Recipe-Ready” sizes. Half-pound bags are available in Recipe Ready only. 1 lb **\$9** 8 oz **\$6** Cookbook **\$8**

Bag-A-Nut™

The Bag-A-Nut™ is a lawn tool used to pick up large quantities of nuts, seeds, and brass. Simply push the Bag-A-Nut™ (or pull the Tag-A-Long version with your lawn tractor), allowing it to roll over the ground, pick up nuts with its fingers, and collect them in the hopper. To empty, pull on the attached cord to empty the basket (Flip-Up) or pull out the hopper (Pick-Up & Tag-A-Long). This tool is a time saver when it comes to picking up the nuts and sweet gum balls in your lawn. It works best in a fairly level, well-kept yard or other area without debris. The Bag-A-Nut™ is made of plastic and comes with a one-year warranty, although it will last for many years with reasonable care. Replacement parts are available if needed.
